

Workshop

Refsyn Biosciences offers the workshop in various disciplinary like Biotechnology, Microbiology, Immunology, Molecular biology, Enzyme & protein, Bio Instrumentation, Clinical diagnostic and Analytical instrumentation etc.

Each workshop is designed keeping in mind the requirements of the students/staff, the availability of the required infrastructure in the colleges and the strength of the students. The workshop provides practical training in basic understanding and concepts of each specific technique.

The workshop program may be conduct in one-day or depends on the college requirements. Our workshop may be in our Refsyn or arranged in colleges, Institutions or industries.

FOR INNOVATIVE NEED
